Governor Carney Signs Legislation Establishing Transportation Infrastructure Fund

On Wednesday, July 31, Governor Carney signed [SB 61](#), which establishes the Transportation Infrastructure Investment Fund (TIIF) to allow businesses to make roadway infrastructure improvements that will support job-creating projects in Delaware.

The Committee of 100 advocated for the establishment of the TIIF that aims to attract new businesses to Delaware, expand existing businesses, create good-paying jobs, and build on Delaware's work to upgrade public infrastructure.

Over the next six years, the State of Delaware will invest \$3.9 billion to modernize Delaware's roads and bridges, improve safety, alleviate congestion on Delaware roadways, and attract new business development.

New Castle County Introduces Environmental Legislation Package

County Executive Matt Meyer and land use officials recently announced an environmental agenda comprised of seven pieces of draft legislation. Part of the GreeNCC program, the package includes limiting landfill height (signed into law on 8/28/19), elimination of septic systems in major subdivisions, and preserving scenic views along byways. The Committee of 100 is participating in several advisory and working groups on these issues. Our Land Use Committee is also closely tracking the draft ordinances and providing guidance to members of County Council and the administration.
